Why should I choose the TAMU CEHD Department of Educational Psychology?

The College of Education and Human Development is the fourth largest college at Texas A&M University, a tier-1 research institution and member of the Association of American Universities.

In 2014, over half of all tenure and tenure-track faculty in the college received external funding for research activities and projects with over $8 million awarded to faculty in EPSY.

The university was ranked 4th nationally among public universities in affordability, high quality education and high return on investment in 2013.

Interested in Obtaining a Visa?

International students who have completed a minimum of 30 credit hours of coursework online have the opportunity to discuss with the program and department about supporting visa application conditioning.

Approved students can then complete an EPSY 685 practicum on campus during their final semester.

Contact

For more information, please contact the Department of Educational Psychology (EPSY) at:

epsyadvisor@tamu.edu
(979) 845-1833

Dr. Jessica Yue
Instructional Assistant Professor
979-845-7276
jessicayue@tamu.edu

Kristie Stramaski
Senior Academic Advisor II
979-845-1833
kstramaski@tamu.edu

The advisor is available via Skype by appointment for current students and applicants.
The Online Masters in Research, Measurement and Statistics – also referred to as the MERITS [Measurement, Educational planning, Research methods, Instrumentation, Testing and Statistics] program – focuses on measurement and research as they pertain to educational settings. Students will gain essential knowledge in the field, select professional goals, design projects in newly emerging areas and effectively communicate projects and scholarly findings to a variety of audiences.

Coupled with flexible course electives and internationally recognized faculty, students enrolled in this program have the opportunity to gain knowledge and skills including:

- Quantitative and qualitative research methodologies used in applied settings
- Analysis of academic skills and tests, as well as the effects of aptitude, motivation, and task environment on academic performance, and their implications for instruction
- Program planning, program implementation and program evaluation
- Development of high quality grant proposals
- Development and evaluation of behavioral measurement instruments
- Primary statistical analysis in educational research

### How Do I Apply?

1. Contact the EPSY graduate advisor for more information on program entrance requirements and application deadlines.
2. Complete all requirements specified by the program.
3. Complete the departmental application at myrecord.cehd.tamu.edu/gradapp
4. Complete the university application at applytexas.org/adappc/gen/c_start.WBX
5. Contact the EPSY graduate advisor again to make sure your application has been received and you have completed all requirements.

Interested applicants must apply to EPSY and Texas A&M University.
