Graduation
The Department of Educational Psychology (EPSY) encompasses students, faculty, and staff whose scholarship and interests center on the many different aspects of academics, teaching, and classroom education. EPSY’s mission is to create experiences that advance teaching, research, grantsmanship, and service through the application of knowledge in the preparation and development of quality researchers and educators. EPSY places high value on collaboration, diversity, critical thinking, creativity, democratic governance, and global leadership.

The Graduate Student Handbook is an informational guide for potential and current students in the EPSY at Texas A&M University. The handbook should serve as a supplement to the Texas A&M University Graduate Catalog and to the Texas A&M University Student Rules, which contain the policies of the Graduate and Professional School (GPS) and those of the university.

At the graduate level, the Department of Educational Psychology offers the Master of Education (online and traditional), Master of Science, and Doctor of Philosophy degrees. The diploma and transcript will only list your official degree title and Texas Higher Coordinating Board-approved degree programs. The academic program area and area of emphasis on student studies are not denoted in any official documentation. Graduate students can apply and study in one of the following Academic Program Areas: Bilingual/ESL Education (BESL), Counseling Psychology (CPSY), Learning Sciences (LS), Research, Measurement, & Statistics (RMS), School Psychology (SPSY), or Special Education (SPED).

In addition to its graduate programs, the department offers undergraduate courses designed to assist prospective educators and other students to understand creativity, bilingual education, human learning and development, special education, and statistics. These courses are taken by students who are majoring in various fields of study other than educational psychology, students who are minoring in Creativity Studies, students who are majoring in Childhood Professional Services, or who require these courses for teacher certification with the Texas Education Agency or similar agencies in other states.

One of the four departments in the School of Education and Human Development, EPSY, is currently home to over 300 undergraduate students, 400 graduate students, 49 faculty members, and 32 staff members. EPSY administrative offices are located on the 8th floor, and faculty offices are in Harrington Tower. The EPSY Graduate Advising Office is currently located in Harrington Tower, 7th floor.

How to Contact the Bilingual/ESL Education Programs
The Bilingual/ESL Education Programs office is open normal business hours.

**Mailing Address:**
Department of Educational Psychology  
Bilingual/ESL Education Programs  
Texas A&M  
University 4225  
TAMU  
College Station, TX 77843-4225

**Physical Address:**
412 Harrington Tower (EDCT)

**Email:** bilingualed@tamu.edu

**Phone:** (979) 845-2599  
**Fax:** (979) 458-0192
EPSY Academic Advisor
The student services offices are located in Room 704 EDCT, just inside the main EPSY office. The EPSY graduate academic advisor is Ms. Peggy Brigman.

Peggy Brigman
Academic Advisor III
Email: brigman@tamu.edu

4225 TAMU
Phone: 979.845.1833
The following assistance is provided:
- Applications and advising for EPSY graduate programs
- Registration
  - Information
  - Drop/Add forms
  - Q-drop
  - In-absentia registration and information
- Deadlines
  - Written and oral preliminary examinations
  - Final exams
  - Dissertations and theses
  - Graduation
- Procurement of rooms for preliminary exams and dissertation proposal/defense meetings
- Grade sheets for teaching assistants and faculty
- Maintenance of student records
- Grade changes (through instructors)
- Variable credit course sign-up (i.e., 485, 685, 683, 691, etc.)
- Ph.D. qualifying exam information
- Record of addresses and phone numbers of current graduate students
- Campus maps and community information

Graduate and Professional School Governance

The Graduate and Professional School (GPS) is a global leader in graduate education, committed to the pursuit of knowledge and the power of intellect. Through exceptional service and commitment to the highest standards, GPS advocates for graduate education at Texas A&M and throughout Texas. The Graduate and Professional School is committed to a diverse campus climate, enhancement of the graduate experience, and the development of all students as global citizens.

GPS serves Texas A&M graduate students as an advocate for their graduate education and houses the Ombudsperson for University Graduate Education. This office:

1. establishes procedures to guarantee the highest quality educational experience at the graduate level;
2. fosters and facilitates interdisciplinary/intercollegiate graduate programs and research activities; and
3. strives to maintain and enhance an environment conducive to creative scholarship and scientific inquiry.

Graduate students must become very familiar with the GPS office webpage at http://GPS.tamu.edu/. GPS oversees degree plans, official deadlines, calendars for graduate students, petitions, graduation, Ombuds office (see Ombuds section), and processes all official documentation of a graduate student’s degree. Before going to the GPS, please contact your department advisor.
Graduate Student Association (GSA)
The Educational Psychology Student Organization (EPSO) is the EPSY GSA, an active cadre of graduate students in various disciplines of education, all a part of the Department of Educational Psychology, and at Texas A&M University. EPSO strives to assist our fellow students in the completion of master’s and doctoral level studies, helping them to acclimate to Texas A&M University, as well as to find success in their studies. In addition, EPSO provides several social and professional development meetings during the academic year for students--for networking and advancing EPSO’s work at TAMU. All students are strongly encouraged to join EPSO, including online MEd and EdD students. **Ph.D. students must be current member of EPSO to be eligible for departmental travel funding.** Web conferencing tools and technologies are available to facilitate distance participation. Please reach out to the Graduate Advising Office for EPSO contact information. EPSO dues are $20 per academic year.

**Transportation & Parking**

Parking permits are always required for all lots. Permits can be purchased during registration as an additional fee option, or you can purchase one online. Visit [http://transport.tamu.edu](http://transport.tamu.edu) for more information. Parking is also available for an hourly fee in garages located in various parts of campus. The nearest parking garage to the EPSY office is the Northside Parking Garage. There are many free TAMU bus routes to get you to and around campus. Visit [http://transport.tamu.edu/transit.aspx](http://transport.tamu.edu/transit.aspx) for the most up-to-date schedules and routes.

**Howdy Portal & Resources**

Students will become very familiar with the Howdy Portal, [http://howdy.tamu.edu](http://howdy.tamu.edu). The Howdy Portal encompasses information regarding Financial Aid, paying your bill, Registration, Withdrawal, Grades, Transcripts, Personal Data, Parking Permits, Graduation Application, Academic Calendar, Degree Audit and Evaluation, Single Sign On (SSO), and Access to Canvas, Student email, Google Drive, Academic Services, Student Writing Center, TAMU Libraries, and so much more. This will be your primary source for university and student information.

**TAMU NetID**

[http://gateway.tamu.edu](http://gateway.tamu.edu) Your NetID is the main log to access information at A&M. Your NetID will also serve as your TAMU email address. Email can be accessed via [http://google.tamu.edu](http://google.tamu.edu), AMU Homepage ([www.tamu.edu](http://www.tamu.edu)), or Howdy Main Portal ([http://howdy.tamu.edu](http://howdy.tamu.edu)).

**TAMU Email**

Upon admission into the University, students will receive a Texas A&M official email address in the format of [NetID@tamu.edu](http://netid@tamu.edu), which will serve as your official email address for all TAMU communications, including those from faculty and staff. Texas A&M student rule 61 requires you to read this email daily: [https://student-rules.tamu.edu/rule61/](https://student-rules.tamu.edu/rule61/)
Failure to monitor the official Texas A&M email is not an acceptable excuse for missed deadlines or requirements and resulting holds or fees will not be lifted for this reason alone.

**Google Team Drive**
Each active student will receive access to their respective program’s Team Drive through Google. This Drive contains all documents, resources, and information EPSY students may need throughout their time as a student, including GPS forms, the student handbook, travel request forms, degree plans, and other resources, with ‘how-to’ methods and essential information for completing official documents.

**Registering for Classes**
Newly admitted graduate students should contact their faculty advisor for assistance in course selections. Course registration is done through the Howdy portal, under the MyRecord tab.

**MyRecord**
MyRecord in the Howdy Portal provides access to all your records in one place. Students can check for holds, view schedules, grades, unofficial transcript, degree evaluation, and register at [http://howdy.tamu.edu](http://howdy.tamu.edu)

**Online Learning Platform (Learning Management Systems)**
Canvas provides access to online learning and instructional resources. Your Canvas log-in is your TAMU NetID and password. Your Canvas account is linked to your TAMU email account. Information about getting set up in Canvas can be found here: [https://lms.tamu.edu/](https://lms.tamu.edu/). Students are required to check their TAMU email account daily. This is the only official means of communication across the Department, School, and University. Students are held responsible for any information sent to their official TAMU email account.

**Other Important Information & Resources**

**Purchase Software**
As a student at A&M you can purchase software, such as Microsoft office, at greatly reduced prices. Log onto the site with your NetID and password, and you will see the software you are authorized to purchase. [https://software.tamu.edu](https://software.tamu.edu)

**My Aggie Card**
The Aggie Card is your official ID at Texas A&M University. It shows your status as a member of the Aggie family. It is important for you to keep your Aggie Card on you at all times. It will allow you to access numerous campus services such as your assigned residence hall, the Rec Center, the library, dining halls, and much more. For information on obtaining your card, please go to [https://myaggiecard.tamu.edu/](https://myaggiecard.tamu.edu/).
**Medical Insurance**
All students are eligible for graduate student insurance. Please visit [http://tamuyahpcare.com/](http://tamuyahpcare.com/) for more information.

**Aggie Ring**
You are eligible to order an Aggie Ring towards the end of your graduate studies. You can check your eligibility and find out more at [http://www.aggienetwork.com/Ring/](http://www.aggienetwork.com/Ring/).

Registration & Enrollment

Class Registration
Registration begins in April for the fall and summer semesters and in November for the spring semester. The specific dates will be noted on the Official University Calendar and on the main portal: http://howdy.tamu.edu. This is also the website where students are able to view the course schedule and register. Students should use Howdy (approximately mid to late March for Summer/Fall, and mid-late October for Spring) to view their assigned registration times.

Distance Education students must update their “Distance Education Location” in Howdy each semester. Otherwise, registration cannot be completed.

Students must clear all holds through outside departments such as the Registrar’s Office, Admissions, Student Affairs, Student Business Services, and Financial Aid prior to registration. Students must contact these offices in order for the holds to be removed. The department is unable to remove any holds except those placed by the Department of Educational Psychology.

All students who fail to pay tuition and fees by the payment date listed on the registration website will be dropped from all courses. Students who register late will be assessed a financial penalty.

Temporary Faculty Advisor
Upon acceptance in the department of Educational Psychology, all graduate students are assigned a temporary faculty advisor. For campus-based students, the temporary advisor is a graduate faculty member in one of the emphasis areas.

The role of the temporary faculty advisor is:
- To assist you with your first year’s course work; and
- To respond to questions that you have about the graduate program in the department of Educational Psychology

Once you receive the name of your faculty advisor, contact him/her immediately. If you do not hear from your faculty advisor in a reasonable amount of time, you may contact the advising office at epsyadvisor@tamu.edu or (979) 845-1831. Once you contact your temporary faculty advisor, please provide him/her with your TAMU email address as a means to contact you.

<td>3 semester credit hours in a summer</td>
</tr>
</tbody>
</table>

**Add/Drop**

When students need to add or drop a course, it is the student’s responsibility to consult with a faculty advisor to identify reasonable substitutions and to complete the add/drop substitutions within Howdy by the deadline each semester. Cohorted students are assigned to schedules that cannot be changed. The Add/Drop period runs through the first five days of the semester. See the Academic Calendar for deadlines. After the fifth class day, a Q-drop will be required. A Q grade before the 12th class day does not count toward the certification of enrollment status.

**Q-Drop**

Students may drop a course with no academic penalty (Q-Drop) during the official Q-Drop period; however, there are financial consequences. Students will become financially responsible for all tuition and fees. Students who drop below full-time status and are on graduate assistantship will forfeit the assistantship. The forms are available on the Registrar’s Office website. The form will need to be submitted to the Department of Educational Psychology Graduate Advising Office. A grade of Q will be recorded on the student’s transcript. It is the student’s responsibility to make certain the course is officially dropped by the deadline. Failure to do so may result in the record of a failing grade. **Students must consult with the course instructor and faculty advisor before submitting the Q-drop form to the Graduate Advising Office.**

**Withdrawal**

A student who drops all courses in a given term will be required to withdraw from the university for the semester. An official withdrawal is initiated by the student in Howdy, and routed to the student’s Dean or designee for approval. A student may not initiate a withdrawal after the Q-drop period ends (see Q-drop periods). However, the student’s Dean or designee may, in certain circumstances, initiate a request to the registrar to withdraw a student after the deadline. For additional information about withdrawing from the University, see Part I, Section 17 of the Texas A&M University Student Rules. Students are reminded that withdrawing from the University does not dismiss the tuition and fees or repayment of student loans borrowed and may impact payment and grace periods. For questions, contact Scholarships & Financial Aid at (979) 845-3236.
Certificate Enrollment: Advanced Research Methods (ARM)

The **Advanced Research Methods (ARM) Certificate** is a stand-alone graduate-level certificate in Education & Social Sciences Advanced Research Methods (ARM), offered by the School of Education and Human Development at Texas A&M University. The program allows graduate and non-degree seeking students the opportunity to gain additional training in research methodology, and to obtain academic validation for their efforts. The Certificate testifies to a student’s successful mastery of advanced competencies in education and social sciences research methods, with emphasis on quantitative or qualitative approaches. The ARM certificate facilitates students’ initiation into the academic publication process and allows them to become more 'marketable' in today’s competitive hiring practices, especially in the context of Research Universities with Very High Research Activity. It is a 12-hour certificate that can be added to your curriculum. This certificate may require additional courses outside of degree plan coursework. Prior to starting the coursework Students must submit Intent & Additional Curriculum forms to the Graduate Advising Office and their Faculty Advisor for approval. The intent form will then need to be submitted online. For requirements and detailed information, please visit [https://education.tamu.edu/degrees-programs/advanced-research-methods-certificate/](https://education.tamu.edu/degrees-programs/advanced-research-methods-certificate/)

If you have questions or interest in this certificate, please contact the Graduate Advising Office or email ARMcertificate@tamu.edu

BESL Courses Registration

**Online Course Restriction (4 Courses Max)**

For any student currently enrolled in our doctoral degree program, no more than four courses may be taken by distance education (online, electronic to group, or off-campus face-to-face) without prior approval of the Department and OGAPS. This applies only to non-research credit hours required for the program.

**Required Courses**

The Ph.D. in Educational Psychology with an emphasis in Bilingual/ESLEducation is designed with considerable flexibility within the core requirements outlined. A minimum of 75 hours of approved coursework, practicum, independent study, internship, and research credit beyond the master’s degree is required. Alternative courses, or proficiency may be substituted with committee approval for the five required components listed below.

We define the field of Bilingual/ESL Education broadly and allow a high degree of flexibility in programs of study. Students may pursue a diverse range of issues, including:

- computer-assisted language learning (CALL)
- corpus linguistics
- language testing and program evaluation
- special education and bilingual/ESL education
- bilingual/ESL teacher education
- research methodology
- leadership and bilingual/ESL education
Bilingual/ESL Education PhD Courses – 27 Hours (to be taken from the list of courses below with the approval of chair and aligned with students’ area of emphasis)

- BESL 615 Teacher Action Research (Qualitative approach) 3
- BESL 617 Evaluation of Programs with Bilingual/ESL and Language Minority Students K-12 3
- BESL 619 Second Language Acquisition in Pre-K-12; Advanced Theory and Practice 3
- BESL 620 Current Issues in Bilingual/ESL Education 3
- BESL 622 Methods of Teaching ESL 3
- BESL 623 Teaching English in International and Intercultural Settings 3
- BESL 624 Adult ESL 3
- BESL 626 Pragmatics and Language Learning 3
- BESL 632 Current Research in Second Language Education 3
- BESL 689 Task-Based Language Teaching and Learning 3
- BESL 627 English Medium Instruction 3
- BESL 689 Technology in Teaching Second Languages 3
- BESL 689 Language Teacher Education 3
- BESL 689 Leadership in TESOL 3
- BESL 689 English for Academic Purposes 3
- BESL 689 English for Occupational and Specific Purposes 3
- BESL 689 Teaching L2 Writing 3
- BESL 689 Biliteracy Development in Young Children 3
- BESL 689 Quantitative Linguistic Data Analysis 3
- BESL 689 Corpus Linguistics and Research 3
- BESL 689 Assessment for Second Language Skills 3
- BESL 689 English Language Acquisition Topics: Introduction to Scoping Review, Meta-Synthesis, and Review of Reviews 3

With the approval of the advisory committee/committee chair, students may elect to customize their course work by taking any of the following courses:

Research and Evaluation – 15 Hours

- EPSY 640 Statistical Analysis in Educational Research I 3
  (Prerequisite: EPSY 636)
- EPSY 641 Statistical Analysis in Educational Research II 3
  (Prerequisite: EPSY 640)
- EPSY 650 Multiple Regression and Other Linear Model (LM) in Education (ED) Research 3
- EPSY 633 Qualitative Research Design and Data Collection 3
- EPSY 637 Qualitative Grounded Theory Methodologies 3

The following courses are other options that you may select to complete your research evaluation component under the advisement of your committee chair/chairs:

- EPSY 642 Meta-Analysis of Behavioral Research 3
- EPSY 643 Applied Multivariate Methods 3
- EPSY 656 Survey Instrument Development 3
Practicum, Internship and Directed Studies - 12 Hours

- BESL 683 Field Practicum Bilingual/ESL Research 3
- BESL 683 Field Practicum in Grant Writing 3
- BESL 683 Field Practicum in College Teaching/Supervision 3
- BESL 685 Directed Studies 3

Electives - 9 Hours

The following are sample courses (please consult with your committee chair)

EDTC 608 Foundations of Distance Learning 3
EDTC 613 Integrating Technology in Learning Environments 3
EPSY 602 Educational Psychology 3
EPSY 625 Advanced Psychometric Theory 3
EPSY 651 Theory of Structural Equation Modeling 3
EPSY 652 Theory of Hierarchical Linear Modeling 3
EPSY 654 Longitudinal Data Analysis 3
EPSY 655 Item Response Theory 3
SPED 618 Induction to Professoriate Development in Higher Education 3
SPED 620 Bilingual Special Education 3
SPED 630 Reading for At-Risk and Disabled Learners 3
RDNG 620 Literacy and Language 3

Dissertation - 12 Hours Minimum

Dissertation credit hours are taken under BESL 691.

Any other coursework requires permission from the student’s committee.

*75 hours beyond a master’s degree; 96 hours beyond a bachelor’s degree (with an optional master’s degree)
Financial Aid

Texas A&M University offers many financial aid options to help you pay for School costs, including scholarships and loans. Offices for financial aid are located in the General Services Complex, and they can be contacted via phone at 979-847-1787. Additional information about Financial Aid can be accessed at https://financialaid.tamu.edu. Students should consult the Department of Student Financial Aid if seeking financial assistance for tuition or other fees. All scholarships, grants and loans are applied to any outstanding charges before installments are calculated. Students who receive Veteran’s benefits need to contact the Veteran Financial Aid Office and communicate immediately with the EPSY Graduate Advising Office.

A limited number of EPSY Scholarships, Fellowships, and Graduate Assistantships are available for PhD students. For application information, please contact the EPSY Graduate Advising Office. More information about the Graduate Assistantship is in its own section below.

General Program Cost Information

Educational expenses for the months of enrollment will vary according to course of study. For details on the basic budget for a particular graduate or professional program, please visit http://financialaid.tamu.edu. Scholarships and Financial Aid considers tuition and fees, books and supplies, transportation, room and board, incidental and living expenses in the cost of attendance for programs. All tuition and fee amounts provided herein represent the most accurate figures available at the time of publication and are subject to change without notice. University Rules in place at the time of publishing are reflected here. All are subject to change. The most current information available will be maintained on the Student Business Services website http://sbs.tamu.edu.

Payment of Tuition and Fees

A student must meet all financial obligations to the University by the due dates to avoid late penalties. Failure to pay amounts owed may result in cancellation of the student’s registration and being barred from future enrollment and receiving official transcripts. A student who wishes to pay fees in installments can select the option on the website http://howdy.tamu.edu. The Emergency Tuition and Fees Loan is available to help students pay their Texas A&M University tuition and required fees. The Emergency Tuition and Fees Loans are for required tuition and fees only. The online process can be accessed at http://financialaid.tamu.edu.

Obligation to Pay Tuition & Fees

By registering for classes, a student agrees to pay all tuition and required fees associated with his/her registration, optional services and other fees, whether paying in full or utilizing the installment payment option. Failure to pay tuition, fees, and other charges may result in penalties, late registration fees, and/or possible cancellation of classes.
Graduating Students Financial Obligation

According to Texas A&M University Student Rules and Chapter § 54.007 (d) of the Texas Education Code, all financial obligations to the University must be paid by the end of the semester. Failure to settle all financial obligations will result in withholding a student’s diploma at graduation. Additionally, a block will be placed on the student’s account that will prohibit registration in subsequent semesters and receipt of official transcripts.

Citations:

Section 14.15 of the Texas A&M University Rules states, “The student must have settled all financial obligations to the University.”

Chapter § 54.007 (d) of the Texas Education Code states, “A student who fails to make full payment of tuition and fees, including any incidental fees, by the due date may be prohibited from registering for classes until full payment is made. A student who fails to make full payment prior to the end of the semester or term may be denied credit for the work done that semester or term.”

Installments

Tuition, most required fees, room, board and parking are payable in full, or in two to four equal installments. A $35 per semester service charge to cover the cost of handling will be assessed to each student who chooses to use the installment plan. The service charge is not refundable once a payment is made under the installment plan or after the first installment due date.

Fees and Costs of Cancelling Your Registration

Once a student has registered for classes, he/she must select one course of action from the following to remain in good standing with the University:

- pay all amounts due by the specified due date;
- prior to the first day of classes, use the online registration system to drop all classes ; or
- after the first day of classes, use the online withdrawal system to request official withdrawal from the University; withdrawals must be approved through his/her School Dean’s office

Following this procedure is especially important for a student who has been awarded scholarships or financial aid since the aid may automatically pay tuition and fees and cause the registration to be held even though the student has decided not to attend. Failure to drop all classes or withdraw from unwanted registration may result in grades of F or I in all courses for the semester. The student will be required to reimburse the University for scholarships and other financial aid applied to his or her account and will be held responsible for paying all fees for the semester, regardless of whether he or she attended classes.
Cancellation for Nonpayment of Tuition or Fees

The University reserves the right to cancel a registration not paid by the due date, or the official census date for a semester or summer term, to comply with state laws requiring payment of tuition and fees, to free the classroom spaces for other students, and to ensure the most efficient use of University resources.

Distance Education and Nontraditional Fees

Distance education students are required to pay tuition, some fees and a distance education cost differential for their coursework. The SEHD distance education cost differential is $225 per credit hour in addition to any tuition and fees charged by the university.

Distance education students are exempt from paying the following fees: Cooperative Education Fees, Health Center Fee, Recreational Sports Fee, and the University Center Complex Fee.

EPSY Graduate Student Travel Grants & Guidelines

Purpose
To provide travel support for EPSY graduate students presenting scholarly papers, research posters, research driven presentations, round table discussions, and other forms of scholarship dissemination at domestic and international professional meetings and symposia.

Guidelines
Active members of EPSO may be eligible for the Travel Scholarship if monies are made available for said scholarship by the department. EPSO will determine how to divide the available funds across two payment times during the academic year. Travel awards will be offered to students once in the Spring and once in the Fall semester. For conferences held July 1-Dec 31st, paperwork (i.e., Travel Scholarship form and receipts) is ALWAYS due the 2nd Friday of the Spring Semester. For conferences Jan. 1-June 30th, paperwork is ALWAYS due the 2nd Friday of the Fall Semester.
**Funding Preference**
To be eligible to apply for a Travel Scholarship, the following criterion must be met:
• Be an EPSY (LS, SPSY, EDTC, CPSY, SPED, Bilingual/ESL Education (BESL); Masters or PhD; traditional or distance) student during the semester in which they attended the conference.
• Be an active EPSO member who has paid their dues in full before/when they submit their travel scholarship application.
• Present proof of involvement as a presenter, such as a program page listing your name and the title of your presentation.
• Turn in receipts for expenses incurred as a direct result of traveling to or attending the conference.

**Extent of Awards**
Scholarship amounts vary depending on the number of applications for funds, rigor of conference, and participation in EPSO/EPSY sponsored events. Generally, EPSO seeks to support all eligible applicants to some degree; this may entail a certain percentage of everyone’s request being disbursed. EPSO will promptly notify Scholarship recipients as to their award amount (by letter in their mailbox, as well as by email) within a week of the Committee’s decision. Decisions about award amounts and notification should occur no more than 3 weeks after the paperwork due date.

**Application Procedure**
The EPSY Academic Program Advisors will notify students via email with specific application instructions each semester. Check your official student email regularly for updates and deadlines for EPSO travel award opportunities.

**PhD Awards and Scholarships**
There are many awards and scholarships available to PhD students based on specific criteria. Some of these awards currently available are listed in the matrix below. Faculty members nominate PhD students for these awards. If you believe that you might be eligible for any of these awards, please speak with a faculty member. The Graduate Advising Office does not have information on these awards. If you would like more information, please visit the available websites listed below and/or speak to a faculty member: Additionally, please check with your Department for other competitive Departmental Scholarships

Academic Policies

Honor Code

"An Aggie does not lie, cheat or steal, or tolerate those who do." Academic integrity is an essential force in the academic life of a university. It enhances the quality of education and celebrates the genuine achievements of others. It is, without reservation, a responsibility of all members of the Texas A&M University Community to actively promote academic integrity. Apathy or acquiescence in the presence of academic dishonesty is not a neutral act -- failure to confront and deter it will reinforce, perpetuate, and enlarge the scope of such misconduct. Failure to comply with the honor code in any way can lead to dismissal from program. See section on Academic policies for further information.

The decision to be removed from the program is made at the departmental level. See section on Academic Policies for further rules and information. For a list of university wide graduate policies, see: [http://catalog.tamu.edu/graduate/university-policies/university-policies.pdf](http://catalog.tamu.edu/graduate/university-policies/university-policies.pdf)

Scholastic Requirements

Students in graduate degree programs and non-degree students (G6 classification) must maintain a 3.00 cumulative GPR (computed as specified in Student Rules Section 10.4.3). After a degree plan is filed, degree-seeking students must maintain a cumulative 3.0 ratio for courses listed within the degree plan. Departments and Schools may establish higher GPR requirements for their students in graduate degree programs and for non-degree students (G6 classification). If either a student's cumulative GPR or the GPR for courses listed on the degree plan within the graduate degree programs and non-degree students (G6 classification) falls below the minimum of 3.0, he or she will be considered to be scholastically deficient. If the minimum GPR is not attained in any two semesters, the student will be dismissed from the EPSY graduate program.

A graduate student will not receive graduate degree credit for undergraduate courses taken on a satisfactory/unsatisfactory (S/U) basis. A graduate student may not receive grades other than satisfactory (S) or unsatisfactory (U) in graduate courses bearing the numbers 681, 684, 693, 695, 697, and 791. These officially designated S/U courses may be listed on the degree plan, along with other courses approved and noted as S/U in the graduate catalog. Grades of A, B, C, and S are acceptable for graduate credit. For graduate students, grades of D, F or Unsatisfactory (U) for courses on the degree plan must be absolved by repeating the courses at Texas A&M University and achieving grades of C or above or Satisfactory (S). EdD students may not take additional graduate courses beyond those on their degree plan. Students who are enrolled in either 691 or 692 courses will receive a grade of Satisfactory (S), Unsatisfactory (U), or Incomplete (I). It is the practice of the EPSY faculty to assign a grade of ‘I’ when the work is in progress prior to the final defense. Upon successful defense and submission of all required paperwork, Incompletes (I) convert to Satisfactory (S).
A course in that the final grade is C may be repeated for a higher grade. If the second grade is higher, the original grade will remain on the student’s permanent record, and the most recent grade will be used in computing the cumulative and degree plan GPRs. A student repeating a course in that a grade of B or better has been earned will not receive grade points for the repeated course, unless the catalog states the course may be repeated for credit.

The cumulative GPR (please refer to Student Rule 10.4.3) for a graduate student is computed by using all graded graduate (600- and 700-level) and advanced undergraduate (300- and 400-level) coursework completed at Texas A&M University and eligible to be applied toward a graduate degree. Those involving grades of W-drop (W), Satisfactory (S), Unsatisfactory (U), and Q-drop (Q) shall be excluded. Any eligible coursework not applied toward a prior graduate degree, and not exceeding time limits, will be included in the student’s GPR for the subsequent degree program.

**Academic Probation & Dismissal**

Graduate students must maintain a 3.0 GPR for every semester. If a GPR is below 3.0, the students is scholastically deficient. The student must earn at least a 3.0 in the next semester and take at least 6 hours of coursework that will be listed on the degree plan. Students who are scholastically deficient for any two semesters will be removed from the EPSY program. The procedures for dismissal are explained in the Texas A&M University Student Rules (refer to the website student-rules.tamu.edu).

Students with a semester GPR below a 3.0 will be blocked from registering for future semesters until they have met with their faculty advisor prior to the start of the next semester of enrollment. A written and signed remediation plan will be submitted to the faculty advisor and to the Associate Department Head or Director for Graduate Studies. Failure to meet and submit a signed remediation plan is a violation of probation rules and will result in dismissal from the program at the end of the semester. Students who raise their GPR to a 3.00 within the guidelines above will be removed from academic probation; however, students cannot be removed from academic probation with any I or X grades outstanding. Any course work not applied towards a prior graduate degree, and not exceeding time limits, will be included in the student’s GPR for the subsequent degree program.

Students must comply with all University, GPS, and departmental policies. In particular, degree plan requirements must be met, or the student may be removed from the program by the Department. It is the student’s responsibility to secure committee chair and members, as well as all other aspects of the degree plan.

Students have three attempts to complete each course required on the degree plan. After the third and final attempt, the student may be dismissed from the program by the department.

**Academic Honesty**

Academic honesty is paramount to the success of all students within the department to ensure the integrity of our programs and degrees offered. All students within your department must comply with the Honor System Rules with regard to all aspects of community responsibility and academic misconduct. Students identified as violating academic
honesty will be reported to the Aggie Honor Code office. **Any academic misconduct confirmed by the Honor Council could result in dismissal from the EPSY program.**

**Plagiarism**
Student Rule 20.1.2.35 The appropriation of another person's ideas, processes, results, or words without giving appropriate credit. 

Plagiarism is not tolerated by the SEHD Graduate Programs, and is considered an Academic Honesty Issue.

**Grievance Procedures**

<table>
<thead>
<tr>
<th>Stage 1:</th>
<th>Grievance, issue, or conflict arises (student-faculty, student-staff, student-supervisor) and is handled informally.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Stage 2:</td>
<td>Unresolved Stage 1 grievance or conflict will involve advisor/chair, division chair or academic program coordinator.</td>
</tr>
<tr>
<td>Stage 3:</td>
<td>Unresolved Stage 2 grievance or conflict will involve the department head, departmental or school level Ombuds.</td>
</tr>
<tr>
<td>Stage 4:</td>
<td>Unresolved Stage 3 grievance or conflict will involve Senior Associate Dean for Academic Affairs and CEHD Graduate Instruction Council (GIC). Student may always seek assistance from the Graduate and Professional School (GPS) Ombuds.</td>
</tr>
</tbody>
</table>
Texas A&M University students are encouraged to seek clarification and advice regarding procedures before initiating a grievance. Students are encouraged to seek assistance from the Ombuds Officer for your department.

**Changing Program Areas within EPSY**

For a student opting to change program areas within EPSY, the student should first contact their current Graduate Advisory Committee Chair or Faculty Entering Advisor, in the student’s current program, to obtain approval. The student will then contact the faculty advisor/chair for the new program area to which the student seeks to change. The student must obtain approval from both the current Committee Chair and the Program Chair of the new program area.

Once approval from both faculty is received, the student will contact an Academic Program Advisor who will provide you with the necessary steps to proceed with the program change through the Document Processing Submission System (DPSS). The DPSS is the same system students use to submit the Student Degree Evaluation.

**Changing Committee Chair or Committee Members**

Graduate students are free to select committee members from faculty qualified and willing to serve based on department guidelines and university policies as documented on the degree plan. Students may change faculty membership in their degree plan with approval and signatures from current and future committee members. Students must secure willing replacement members prior to starting the process. Students are encouraged to consult with their current Committee Chair prior to considering changes in the composition of their Graduate Committee. If conflicts arise during this process, students should consult with the Associate Department Head/Director for Graduate studies. The most important thing for graduate students to remember is to consult with everyone involved in the process of formation and/or changing of the Graduate Committee prior to making any formal decisions. It is the graduate students right to change a committee member or chair or reconstitute the entire committee. Such an action must be taken prior to the final exam/final dissertation defense. A consultation with the Associate Department Head for graduate programs is strongly advised if such an action is taken.

**APA & Reference Document Style**

In general, the department of EPSY faculty support the *Publication Manual of the American Psychology Association* (APA) for papers written in classes, as the APA style is used for theses and dissertations. Students are encouraged to purchase or otherwise utilize such works as the *Thesis Manual* or the *Publication Manual*, both available at the University Bookstore. Information on the APA style may also be found in the Evans Library Reference section or found on the Internet.
Research and Data Ethics

Introduction
Graduate students often work closely with faculty in the conduct of research aligned with priorities of the faculty member. Graduate students work towards dissemination of their original research at venues, conferences, and symposia appropriate to their level of development as scholars. Please refer to IRB, APA and/or GPS for questions of authorship and data ownership. All conference proposals and manuscripts must be submitted with permission of faculty member and in accordance with their role on the IRB. If you work as a GAR or GANT on a grant or for a center, please check with the Director or Principal Investigator.

Responsible conduct of research policy
Graduate students work with faculty on various types of projects. Typically, that work is categorized into one of two primary types. First and most common is the chair - doctoral student relationship. Once the two of you have mutually agreed to enter into this relationship, the graduate student is obligated to request permission to submit work for presentation or publication regardless of where the data are derived from or the focus of the presentation. If the data are part of the student’s own research agenda and was collected from a study designed as part of their paid assistantship, at the least, the chair/co-chair should be a co-author (subordinate to the student) on all conference proposals and manuscripts for publication. If the student is pursuing independent lines of research apart from their dissertation related research while a graduate student, and plans to present/publish this work, it should be with the chair’s approval and separate from the paid assistantship. In such cases, co-authorship with the chair may or may not be required but the deciding factor should be governed by the data ownership and who is listed as the PI on IRB application and subordinate to that guideline from the American Psychological Association and American Educational Research Association. When in doubt no conference proposal or manuscript should be submitted without prior discussion and approval by the faculty supervisor.

The second most common research related relationship is that of Faculty Member - Graduate Assistant for Research (this can also be a chair or co-chair - Graduate Assistant for Research). If the data are or were part of a funded project or any other project under the direction of the faculty member, the data belongs to the faculty member not the student, regardless of the graduate student’s role in collecting, organizing, storing, or analyzing the data and the student has no rights to that data. Therefore, the graduate student must obtain permission to use the data even when that data is already in the graduate student’s possession. Any document (conference or grant proposals, or manuscripts) developed should have the faculty member’s name first, only be undertaken with permission of the faculty member, and only be developed under the faculty member’s direct supervision. There are times when the faculty member might direct another author order, but this should happen before the document(s) are developed. All authorship order that is different from the prescribed order should be negotiated before the development of any document. Because obtaining a doctorate is an apprenticeship endeavor, students should never undertake a document development task in which the faculty member is not fully engaged. It is not acceptable to develop a document and include a faculty member’s name without the faculty member’s prior consent and their participation in its development. The faculty member is the
Principal (PI) on every IRB, thereby requiring that all activities involving data collected under that IRB only be performed with the permission and supervision of the PI.

Data use granted for a dissertation by a PI, dissertation chair, co-chair, or faculty member is for the strict use in the dissertation and the production of that product. The student is typically granted the right to use the data under the circumstances prescribed by the data owner after having met all university guidelines, rules, and policies that include IRB requirements. Once the student has completed the dissertation use of the data are revoked and any subsequent use of the requires a new approval. If a traditional dissertation is undertaken no articles can be derived without meeting IRB requirements and permission of the data owner. For students submitting the article version dissertation they, have the right to revise the articles generated after graduation for publication, make edits required for publication or required as a result of the blind review process, but under no circumstances can data be reanalyzed, or new articles developed without written permission to use the data and applicable IRB approvals. Presentations derived from the dissertation should include the names of committee members (including chair/co-chairs) whose contributions merit inclusion.

The following links informed the development of this section. While these links do not form EPSY policy they may be helpful to novices in building their professional persona:

- https://www.apa.org/research/responsible/publication/
- http://www.aera.net/About-AERA/AERA-Rules-Policies/Professional-Ethics

**Necessary pre-requisites to dissertation, thesis, or record of study defense**

In addition to university guidelines for eligibility for defense of the final product for MS, PhD, or EdD, the student must submit to the chair before the defense the following:

1) the data used in the study or studies in an organized and systematic way. The data must be identified, in an applicable format required by chair (e.g., Excel, STATA, SPSS) on media specified by the chair. The department of EPSY recommends the student provide a flash drive that is clearly labeled with the student’s name, IRB Protocol number, and year of the defense. The chair/co-chair may have additional requirements.

2) evidence that the IRB was closed.

If the student intends to develop additional products based on the data and all permissions are secured, the student should seek IRB approval at their new institution. Failure to complete items 1 and 2, will result in the defense being cancelled and recorded as a failure. The second attempt will not be scheduled until the student has submitted the required documentation and it is satisfactory to the chair/co-chair.
Ombuds Officer

The Ombuds Officer serves as an informal, neutral, and confidential resource for graduate students to discuss questions and concerns related to their graduate experience. The university is a large and complex institution and graduate students often play multiple roles (e.g., student, research collaborator, instructor, technician, peer). Misunderstandings and conflicts can arise in any one of these roles. Having a safe, off-the-record conversation with an Ombuds Officer can be a first step if you do not know where to turn. The Ombuds Officer is here to help graduate students identify options for addressing concerns and will promote a fair and impartial process for all parties involved.

The Graduate and Professional Student Ombuds Officer is guided and informed by the Code of Ethics and Standards of Practice of the International Ombudsman Association. The ombuds officer promotes the University mission of excellence in graduate education by providing a service to support and facilitate environments in which graduate students can thrive and prosper.

The Ombuds Officer can:
1. Listen and help you achieve a greater understanding of the problem.
2. Help you find information applicable to your situation and identify possible solutions to your problem.
3. Explain University policies and procedures and how they apply to your specific case.
4. Help you identify options for resolving conflicts with colleagues, staff, faculty, and advisors.
5. Help you achieve fair and equitable solutions to problems.
6. Facilitate communication among people in conflict.
7. Provide other types of assistance to help you resolve a problem informally.
8. Refer you to formal grievance or appeal procedures if you wish to engage in a formal process.
9. Identify trends or patterns of complaints that might be systemic.
10. Offer recommendations for changes to policies/procedures that appear outdated or problematic, while maintaining confidentiality.

The Ombuds Officer cannot:
11. Advocate for the University or the student, or any particular point of view.
12. Make or change University decisions, rules, or policies.
13. Set aside a decision or supersede the authority of another University official.
14. Participate in formal grievance procedures.
15. Provide legal advice.
16. Conduct formal investigations.

You might want to contact the Ombuds Officer when:
17. You need an impartial, independent, and confidential person to listen.
18. You think someone at the university has treated you unfairly.
19. You have an issue that you and others have not been able to resolve and that you would prefer not to address through formal channels.
20. You are not sure how to interpret a University policy or procedure or how it applies to your situation.
21. You feel that a University policy, procedure, or regulation has been applied unfairly, or itself is unfair or ambiguous.

22. You have a problem that requires an outside party to help facilitate communication and/or negotiate a solution.

**The Ombuds Officer hears about a wide range of graduate student experiences and concerns. Some common concerns include:**

23. Academic related issues (grade disputes, testing procedures, instructor/student misunderstandings, etc.)
24. Intellectual property
25. Interpersonal conflicts, lab politics, and problems with workplace climate
26. Professional ethics
27. Advice on how to have difficult conversations
28. Concerns about procedural fairness or due process
29. Conflicts between graduate students and their research advisors
30. Concerns about inequities in work expectations and/or funding opportunities
31. Disagreements with or misunderstandings of university policy/procedure
32. Cultural conflicts
33. Concerns about unethical or inappropriate behavior

Graduate Student Advising

Degree Plans

A graduate student must file a degree plan which includes those courses to be applied toward a particular degree and formally establishes the advisory committee. Doctoral students in EPSY must file their degree plan during the semester in which they are enrolled in the 36th hour, and no later than 90 days prior to the preliminary examination. Masters students in EPSY must file their degree plan during the semester in which they are enrolled in their 15th hour.

Students will file their degree plans using the Document Processing Submission System (DPSS). The degree plan is then circulated electronically for approval from the departmental graduate advisor, committee Chair/Co-Chairs, committee members, department head, and GPS.

Student Petitions

Students needing to make course changes to their degree plan, or make changes to their advisory committee, will need to submit a petition to GPS. They will do this using the Document Processing Submission System (DPSS). The petition is circulated electronically for approval from the departmental graduate advisor, committee Chair/Co-Chairs, committee members, department head, and GPS. Petitions for Waivers/Exceptions (time limit extensions, residency waivers, etc.) are also submitted using this system.

Proposal/Exam Forms

The Proposal Approval Form, Preliminary Exam Checklist and Report, Request for Final Examination, and Request for Exemption from Final Examination forms are all located on the GPS website. Students will need to type all required fields online before printing the forms for required signatures. Forms needing department head approval will need to be submitted to the Graduate Advising Office after all committee members have signed the forms. The advisors will review the forms for accuracy, then submit to department head. Once the department head signs the form, a copy is made for the student’s file, and the original form is sent to GPS.

Google Team Drive

Each active student will receive access to their respective program’s Team Drive through Google. This Drive contains all documents, resources, and information the EPSY students may need throughout their time as a student, including GPS forms, the student handbook, travel request forms, degree plans, and other resources, with ‘how-to’s’ and essential information for completing official documents.
Student Degree Evaluations in Howdy

The Degree Evaluation in Howdy lists all requirements that must be met for a successful completion of a student’s program and a timely graduation. To view, students can go to their MyRecord section in Howdy:

1. Degree Evaluation
2. Generate New Evaluation
3. Choose your program; Generate Request
4. Detail Requirements:
   a. After the student’s degree plan is approved on all levels within the GPS system, the student will be able to see their courses required for their degree, as well as coursework that they’ve taken that do not directly count towards the degree.
5. Additional Information:
   a. This section can be used to track the program non-course requirements, such as when the degree plan was submitted, preliminary examination, research proposal, residency requirements, admission to candidacy, doctoral defense/final examinations, and dissertation/ROS information.
EPSY Graduate Assistantship Guidelines

The Department of Educational Psychology (EPSY) has a long tradition of supporting PhD students during the course of doctoral studies. A full range of Graduate Teaching Assistantships, Graduate Research Assistantships, Merit Fellowships and Scholarships, Tuition Reimbursements, Work Study Assignments, and Mentorships in Teaching with Faculty are available only to PhD students in EPSY. The department provides abundant opportunities for PhD students to advance skills in teaching, research, and service in order to fully prepare our students for a successful academic career in higher education and other educational research environments. The mission statement of EPSY emphasizes mentorship and growth in teaching, grant writing, and research for all of our graduate students, and GA positions are provided that enhance a well-rounded doctoral experience. While many Graduate Assistantships and Scholarships are available for PhD students, there are limits to funding that vary from year to year. While EPSY cannot guarantee GA positions or scholarships for all students every semester, the department will make every effort to equitably distribute access to the various funding sources for all students.

To be eligible for EPSY assistantships, the student must be enrolled full-time (9 hours) for the entire length of their employment period. The general guidelines below are established to help PhD students understand the process of awarding GA positions and to encourage everyone to work collaboratively to advance a well-rounded experience for all students. Applications to apply for a Graduate Assistantship will be made available by the Associate Department Head/Director for Graduate Studies each spring semester.

Assistantship Plan

1. Merit-based Graduate Assistantships are available in EPSY for a limited number of full-time PhD students every semester. Master’s degree students and EdD students are not eligible for EPSY funded Graduate Assistantships. However, faculty members with grant funds external to EPSY may hire any suitable graduate student for their project. Graduate Assistantships in EPSY may be provided for teaching, grading, research, or special departmental needs. Every Graduate Assistantship award is based on merit, exceptional performance in previous assignments, evaluations by the faculty mentors, PICA scores (for GATs), and department needs. See https://pica.tamu.edu/ for the official university online course evaluation system, called PICA.

2. Duration: Graduate Assistantships in EPSY for PhD students are not guaranteed. However, if awarded, students will receive no more than 3 years of departmental funded support. A Graduate Assistant who receives any funding from EPSY during an academic year is considered to have received one full year of EPSY funding. Any departmental support provided to a PhD student in a semester – whether in the form of salary, tuition, or benefits – will count toward a year of EPSY support. To clarify, if a student receives 5 hours, 10 hours, or 20 hours of GA support for a semester and/or any support for tuition and/or benefits from the department (no matter the number of hours or dollar value), then the student is considered to have received a full year of Graduate Assistantship benefits from
EPSY.

3. The department encourages students to secure funding from grants with professors, scholarships from SEHD, GPS, CTE, MSC, and work study activities in the university, graduate assistantships in other departments, centers or institutes, and/or loans to provide support for tuition and benefits. Funding from grants and other sources external or internal to EPSY do not count toward EPSY funding for graduate students.

4. Summer funding is occasionally available. Priority for summer funding from EPSY will be awarded based on merit, exceptional performance in previous assignments, departmental needs, and student progress toward graduation. If a PhD student receives any summer funding for salary, tuition, or benefits, this will not count toward the 3-year limit on EPSY funded Graduate Assistantships.

5. In very rare circumstances, funding is also provided to students in the Online EdD Program; however, as most EdD students are practicing school leaders, these opportunities are limited and are reserved for exceptional circumstances. EdD students should be aware that some scholarships and fellowships are restricted to PhD students only. If an EdD student were to be granted funding by the department, the rules outlined above would apply to them as well.

6. The Associate Department Head for Graduate Studies, in consultation with the Academic Program Chairs and the Graduate Committee, selects and appoints all Graduate Assistants. This decision of who receives a Graduate Assistantship is based on several factors including: departmental needs, recommendations from Academic Program Chairs, availability of funds, academic credentials, English Language Proficiency scores for international students, Center for Teaching Excellence certification, annual mentor evaluations, full time status, previous years of support, match of skills with research, and competency in teaching and research needs for the position.

7. Students who do not receive EPSY funded assistantships are encouraged to seek funds outside of the department from sources such as: Graduate and Professional School (GPS), Center for Teaching Excellence (CTE), Memorial Student Center (MSC), external faculty grants, and other departments in SEHD or the University.

The awarding of a graduate assistantship is contingent upon the successful completion of a criminal background check as required by Texas A&M University Regulation 33.99.14 governing all employees. The details of this regulation can be found on the web at http://rules-saps.tamu.edu/pdfs/33.99.14.m1.pdf.

By signing the contract for the assistantship, the student acknowledges that they will complete all online training required by Texas A&M University, abide by all rules and regulations of Texas A&M University, and attend all orientation and training meetings.

**Graduate Assistant Categories and Duties**

There are three classifications of Graduate Assistants: Graduate Assistant Teaching (GAT), Graduate Assistant Non-Teaching (GANT), and Graduate Assistant Research (GAR).
**Graduate Assistant – Teaching (GAT)**

Prior to being hired, GATs must attend all required trainings before interacting with students. They must:

1. Complete the Teaching Assistant Institute (TAI) Online Preparation Course
   - Attend the face-to-face Teaching Assistant Institute provided by the Center for Teaching Excellence (CTE).
   - Submit the TAI certificate to the Associate Department Head for Graduate Studies
   - Attend the department GAT training offered at the beginning of the semester
   - For those Graduate Assistants who will be teaching a class as a GAT, your syllabus must be sent electronically to your faculty mentor. Your employment is based on university hours, Monday through Friday, from the beginning until the end of the semester on the university calendar [https://registrar.tamu.edu/Catalogs-Policies-Procedures/Academic-Calendar](https://registrar.tamu.edu/Catalogs-Policies-Procedures/Academic-Calendar).

Your faculty mentor will assign specific times and tasks.

**Graduate Assistant Non-Teaching (GANT)**

GANT (Graduate Assistant Non-Teaching but supporting faculty courses). GANTs must:

- Attend the Department meeting of all GAs at the beginning of the semester. An email will be sent with detailed information.
- GANTs must also attend the Teaching Assistant Institute (TAI). See below.

**Graduate Assistant Research (GAR)**

GAR (Graduate Assistant for Research supports faculty journals, centers, grants, and other research projects). GARs must:

**Chapter 1:** Attend the Teaching Assistant Institute (TAI) if they will have any contact with Pre-K through 12 students. See below.

**Chapter 2:** Attend the meetings of all Graduate Assistants (GAT, GANT, GAR).

**Teaching Assistant Institute (TAI).** The Teaching Assistant Institute (TAI), hosted by the Graduate and Professional School and the Center for Teaching Excellence, is a one day face-to-face course with additional online modules designed to prepare graduate students for School classroom teaching. TAI is offered every year at the beginning of the fall and spring semesters and is required for new TAs who serve as recitation leaders, laboratory instructors, and/or full responsibility lecturers. The schedule for these trainings can be found at [https://cte.tamu.edu/Featured-Programs/Teaching-Assistant-Institute](https://cte.tamu.edu/Featured-Programs/Teaching-Assistant-Institute)

**Explicit Understandings:**

(Rates are accurate as of 2022-2023 SY)

1. A graduate student assigned 20 hours is considered full-time by YOUR DEPARTMENT.
   - For accounting and grant budgeting purposes, 20 hours = 50% time, 10 hours = 25% time.
2. Current Doctoral Student Salary (20 hours) is $1750 per month for 9 months.
3. Approximate Costs for 9-month doctoral student is $4,914 (Tuition) + $18,900 (salary fringes 20%, insurance) = $23,814.
4. If a graduate student is funded for 10 hours by the department, the student will need to secure an additional 10 hours in order to be eligible for health insurance and tuition
support. A graduate student with only 10 hours of support is not eligible for tuition support or insurance.

5. If a graduate student is funded 10 hours by external funds, funding by the department for the additional 10 hours is based on needs in the department and advance approval by the department.

6. Students will follow the Texas A&M Staff and Faculty holiday dates as set forth by the University.

Requirements for Graduate Assistants
All Graduate Assistants (both Teaching and Non-Teaching) will complete all online training required by Texas A&M University, abide by all rules and regulations of TAMU, and attend all orientation and training meetings. This includes the Center for Teaching Excellence (CTE) certification before you are employed in a GAT (Graduate Assistant Teaching) or GANT (Graduate Assisting Not Teaching but supporting faculty courses) or GAR (Graduate Assistant Research for those having any contact with Pre-K through 12 students). All Graduate Assistants must apply with all CTE requirements, all university employment requirements, and all departmental policies and procedures. Your salary will not begin until you have secured CTE certification and attended the departmental seminar of all Graduate Assistants (GAT, GANT, and GAR). This seminar is mandatory and it is expected that you attend and participate as part of your roles and responsibilities. Your employment is based on university hours, Monday through Friday, from the beginning until the end of the semester on the university staff calendar. Your faculty mentor will assign specific times and tasks.

Graduate Assistant Teaching (GAT) will be assigned a faculty mentor. Your syllabus must be sent electronically to your faculty mentor by August 15 for the Fall semester and January 15 for the Spring semester. Minimum syllabus requirements:
http://registrar.tamu.edu/Registrar/media/Curricular-Services/Curricular%20Approvals/Course%20Approvals/CourseSubmissionChecklist.pdf

It will be your responsibility to contact your mentor and schedule at least two observations; one prior to midterm. The mentor will complete an evaluation and provide feedback following the scheduled observation. You must register your course for both midterm and final evaluations using the PICA system pica.tamu.edu. You are responsible for sending the statistical data and feedback from students to your assigned mentor within one week of receiving the results.

Graduate Assistants Non-Teaching (GANT) and Graduate Assistant Research (GAR): The University requires that all GANTs and GARs receive a summative evaluation by the supervising professor. This includes graduate assistants for large classes as well as graduate assistants for research. Your response to this evaluation is required. This system is administered online.

1. The university requires that all GANTs and GARs receive an evaluation by the supervising professor. That is, graduate assistants for large classes as well as graduate assistants for research will be evaluated by the supervising professor. Your response to this evaluation is required.
2. Graduate Assistant Teaching (GAT) - You will be assigned a faculty mentor that may or may not be the same as the temporary advisor.

**Mentoring, Advising, and Coaching Guidelines**
All faculty serving as mentor/advisor/coach to a graduate student are expected to exercise responsible guidance practices. An online evaluation portal is used to monitor progress of all graduate assistants who are GAR/GAT/GANT. Faculty mentors/advisors/coaches will complete a brief on-line evaluation of each funded GAR/GAT/GANT under their supervision each semester. Graduate Assistants must review and comment on the evaluations.

**Syllabus and Attendance Certification**

GAT (Graduate Assistant Teaching) or GANT (Graduate Assisting Not Teaching but supporting faculty courses) or GAR (Graduate Assistant Research for those having any contact with Pre-K through 12 students) students must complete the Center for Teaching Excellence (CTE) certification. CTE is a one-time certification. International students must also secure English Language Proficiency certification (see below). GAT/GANT/GAR salaries will not begin until you have secured CTE certification and ELP certification (international) and attended a meeting of all Graduate Assistants (GAT, GANT, and GAR). This seminar is mandatory, and it is expected that assistants attend and participate as part of their roles and responsibilities. For Graduate Assistants who will be teaching a class as a GAT, their syllabus must be sent electronically to their faculty mentor. Your employment is based on university hours, Monday through Friday, from the beginning until the end of the semester on the university staff calendar. The faculty mentor will assign specific times and tasks.

**International students please note:**

If international graduate students who wish to serve in teaching positions do not achieve requisite standardized test scores prior to enrollment, they can certify by taking the on-campus English Language Proficiency Exam (ELPE). Registration deadlines exist. Spots fill quickly. For registration information, visit Testing Services.

**Minimum Syllabus Requirements**

A checklist of minimum syllabus requirements for courses taught at TAMU can be found online:

http://registrar.tamu.edu/registrar/media/curricular-services/curricular%20approvals/course%20approvals/coursesubmissionchecklist.pdf. A syllabus template, ADA and Academic Integrity Statements, an Attendance Policy, and Grading Scale Examples can be found at https://registrar.tamu.edu/Our-Services/Curricular-Services/Curricular-Approvals/Course-Approvals#2-MinimumSyllabusRequirements.

**HR Department:**

Upon arrival to campus, graduate assistants must complete initial employment forms in both the EPSY administrative offices 8th floor Harrington Tower and in the Dean’s Office in room 803 Harrington Tower.
Office Key, Copier Code, and Weekend Access:

The EPSY administrative office will gladly assist you in obtaining these resources. Please schedule an appointment with Cathy Watson (cwatson@tamu.edu) to obtain these items.

Department Laptops for Graduate Assistants:

Texas A&M Libraries have Computing and Electronic Resources for students to Loan or Rent for periods of time. Students can rent these resources from the Annex Library. There are also Open Access Labs across campus, allowing students to use university computers and printers across campus. For more information, visit oal.tamu.edu

Residence Requirements

A major purpose of the residence requirements for graduate degrees is to ensure that the student has an opportunity to benefit from the advantages of a university environment. These advantages include accessibility of library, laboratory, and other physical facilities, and also the opportunity to participate in seminars and a variety of cultural activities. Equally important to the graduate student are the advantages of becoming acquainted with the faculty and other students on a personal and a professional basis. A student “in residence” is expected to devote most of his or her time and energy to graduate studies under the direction of the student’s advisory committee chair and the advisory committee. Another major purpose of the residence requirements for graduate degrees is to ensure that the faculty have the opportunity to properly evaluate the student and his or her development, to guide and direct his or her studies, and to determine competency. The minimum time required to qualify for an advanced degree varies with the ability and preparation of the student. A student may find it necessary to extend his/her studies beyond the minimum requirements. Please note that University policy does not allow more than four courses in a doctoral program by distance (online, electronic to group, or off-campus face-to-face).

Distance Education Restrictions

The Texas Higher Education Coordinating Board has specific rules and regulations related to Doctoral programs. One of these regulations is a limit of four (4) courses taken in a distance or online format. Unless the doctoral program is a Texas Higher Education Coordinating Board approved online degree. When scheduling courses and planning your degree plan, please be aware that only four distance education or online courses can be included in your degree plan. If you take more than four courses in a distance education or online format, these additional courses beyond the limit of four courses cannot count toward the 64-hour or 96-hour degree plan and exceeding the limit would prevent you from graduating. Please see the link below for specific information: https://reportcenter.highered.texas.gov/agency-publication/guidelines-manuals/waar-de-approval-process-guidelines-final/

Course Time Limit

All requirements for doctoral degrees must be completed within a period of ten consecutive calendar years for the degree to be granted. A course will be considered valid until 10 years after the end of the semester in which it is taken. Graduate credit for course work more than ten calendar years old at the time of the final oral examination may not be used to satisfy degree
requirements. A final corrected version of the dissertation in electronic format as a single PDF file must be cleared by the Thesis Office no later than one year after the final examination or within the 10-year time limit, whichever occurs first. Failure to do so will result in the degree not being awarded.

99-Hour Cap on Doctoral Degrees

Doctoral students have 7 years (21 semesters) to complete their doctoral degree without being penalized. During the 7 years, students who are otherwise eligible for in-state tuition will be charged as such, even if they accumulate more than 99 doctoral hours. After 7 years (21 semesters), any student accumulating more than 99 doctoral hours will be charged tuition at a rate equivalent to out-of-state tuition regardless of funding. Students who have been granted individual exemptions for the doctoral hour cap limit by the Texas Higher Education Coordinating Board and those students in programs that receive programmatic exemptions have 130 doctoral hours and 21 semesters before they are penalized with a higher tuition rate.

Student’s Advisory Committee

A graduate student at Texas A&M University benefits from the guidance and expertise of faculty members who agree to serve on their graduate advisory committee. The students’ committee approves courses, thesis, and dissertation proposals, conducts preliminary written and oral examinations for doctoral students, and administers the final examination required for all degrees. It is the student’s responsibility to form an advisory committee, in consultation with their selected chair. This is done by completing a degree plan, that is signed by the faculty members who agree to serve on the advisory committee.

Students in the Ph.D. program must select their chair and/or co-chair, form their advisory committees, and file their degree plans before the end of their fourth regular semester in residence, excluding summer semester. Registration for future semesters is blocked until the degree plan is on file. Doctoral advisory committees will consist of no fewer than four members of the graduate faculty. The student’s chair must be a full-time member of the department and program area, and at least one or more of the members must be from a department other than the student’s major department.

After receiving admission to graduate studies and enrolling, the student will consult with the assigned faculty advisor concerning coursework and registration. The assigned faculty advisor may or may not serve as the chair or co-chair of the student’s dissertation committee.

Before the completion of 36 hours, a student should have met, consulted with, and chosen a faculty chairperson for his/her dissertation. The chair, in consultation with the student, will select the remainder of the advisory committee. Only graduate faculty members located on the campuses at College Station, Galveston, Texas A&M University-Temple Campus or Institute of Biosciences and Technology-Houston may serve as chair of a student’s advisory committee. Other Texas A&M University graduate faculty members, including the Texas A&M University System graduate faculty, may serve as co-chair with an individual located at College Station, Houston, Temple or Galveston.
The committee members’ electronic approval on the degree plan indicates their willingness to accept the responsibility for guiding and directing the entire academic program of the student and for guiding all academic actions concerning the student. Although individual committee members may be replaced by petition for valid reasons, a committee cannot resign *en masse*. The chair of the committee, who usually has immediate supervision of the student’s research and dissertation has the responsibility for calling all meetings of the committee. The duties of the committee include guidance on the approved courses for the proposed degree plan, the research proposal, the preliminary examination, the dissertation format, and the final examination. In addition, the committee, as a group and as individual members, is responsible for counseling the student on academic matters, and, in the case of academic deficiency, initiating recommendations to the Graduate and Professional School.

**Doctoral Portfolio (Electronic Format)**

All doctoral students in EPSY have their academic performance reviewed by their Dissertation Committee Chair and other Committee Members, annually. This review takes place in the spring semester of each academic year.

**Purpose**

This annual review allows faculty to ‘keep track’ of how their doctoral students are moving along their academic work. It allows faculty to assess, for instance, what courses the student has taken, what grades the student has achieved, and whether the student has completed all university requirements for the doctoral degree (PhD or EdD). In addition to allowing faculty to have access to their students’ data, the new electronic format for the annual review will allow doctoral students to develop an electronic portfolio of their work: a place where they can upload papers, presentations, list their conference presentations, memberships in professional organizations, and research interests.

**Procedures**

The annual review of doctoral students – electronic format – will consist of the following steps:

1. Doctoral students feed appropriate information regarding their academic ‘products’, into the Doctoral Student Portfolio. To access the portfolio, students need to:
   - Click on [http://myrecord.SEHD.tamu.edu/](http://myrecord.SEHD.tamu.edu/)
   - Click on the link "Login for Active TAMU Students" (this will take students through the A&M NetID login process)
   - Once logged in, the student will be automatically taken to the front page of the "Student Data Portal"
   - Click on the link "Doctoral Student Portfolio/Review" (should be visible to all current G8 students)
   - Students are responsible for updating their information on a regular basis. They MUST HAVE input all pertinent information prior to the Annual Review date (usually in October). Once updated, a notification is automatically sent to the student’s faculty advisor and the EPSY Graduate Advising Office.
2. Faculty can click on individual students and see the various pages with information on the selected student, including the student’s portfolio. The faculty member’s TASK is to go to the REVIEW page and provide an assessment of the student. Space is available for faculty to provide written notes justifying the evaluation. A simple click on the appropriate button (SATISFACTORY or UNSATISFACTORY), and the review process (by the faculty chair) is complete.

3. The Graduate Advising Office will subsequently assess all faculty evaluations. Those cases marked as ‘unsatisfactory’ will be brought forth for discussion by the graduate faculty.

4. All doctoral students, at the end of the annual review, will receive an email stating the student’s progress rating as ‘satisfactory’ or ‘unsatisfactory’. In the case of an ‘unsatisfactory’ assessment, the student will receive specific comments and suggestions for improvement strategies.

Degree Plan

The student’s advisory committee will evaluate the student’s previous education and degree objectives. The committee, in consultation with the student, will develop a proposed degree plan and outline a research problem that, when completed, as indicated by the dissertation, will constitute the basic requirements for the degree. The degree plan must be filed with the Graduate and Professional School during the semester in which the student is enrolled in the 36th hour, and no later than 90 days prior to the preliminary examination.

A graduate student must file a degree plan that includes those courses to be applied toward a particular degree and formally establishes the advisory committee. Courses previously used for another degree are not acceptable for degree plan credit.

Lower division undergraduate coursework (100- and 200-level) may not be used for credit toward a graduate degree. Coursework applied to a previous degree may not be used toward a graduate degree. Coursework may not be used to satisfy requirements for more than one degree. Additional coursework may be added to the approved degree plan by the student's advisory committee if such additional coursework is needed to correct deficiencies in the student’s academic preparation. Specific details and requirements for each degree program may be obtained from the student’s academic department or the specific degree program requirements provided in the catalog. No changes can be made to the degree plan once the student’s Request for Final Examination or Request for Final Examination Exemption is approved by the School of Graduate and Professional Studies.

Changes in the approved degree plan may be made by petition to the School of Graduate and Professional Studies. A student should submit the degree plan and petitions using the online Document Processing Submission System located on the website at https://ogsdpss.tamu.edu. Courses listed on the degree plan are subject to degree program time limits. Please refer to the Time Limits section in each degree program section in which the student is presently enrolled.

Transfer of Credit for Doctoral Degrees

Courses for which transfer credits are sought must have been completed with a grade of B or greater and must be approved by the student's advisory committee and the Graduate and
Professional School. These courses must not have been used previously for another degree. Credit for “internship” coursework in any form is not transferable. Courses taken in residence at an accredited U.S. institution or approved international institution with a final grade of B or greater will be considered for transfer credit if, at the time the courses were completed, the courses would be accepted for credit toward a similar degree for a student in degree-seeking status at the host institution. Credit for coursework taken by extension is not transferable. Coursework that no formal grades are given or in which grades other than letter grades (A or B) are earned (for example, CR, P, S, U, H, etc.) is not accepted for transfer credit. Credit for coursework submitted for transfer from any School or university must be shown in semester credit hours, or equated to semester credit hours. Courses used toward a degree at another institution may not be applied for graduate credit. If the course to be transferred was taken prior to the conferral of a degree at the transfer institution, a letter from the registrar at that institution stating that the course was not applied for credit toward the degree must be submitted to the Graduate and Professional School. Grades for courses completed at other institutions are not included in computing the GPR. An official transcript from the university that transfer courses are taken must be sent directly to the Office of Admissions. The Graduate Committee of the Department of Educational Psychology will review and approve all requests for transfer credits.

**Petitions**

Graduate students may use petitions to:

1. request a change of major, degree or department;
2. request changes to the coursework or committee membership as established by the degree plan;
3. request a leave of absence;
4. request extensions to time limits; or
5. request exceptions to published rules.

Each petition will be considered on its own merit by the Associate Provost for Graduate and Professional Studies. The student should make such requests by submitting either a Major, Degree, or Department petition (MDD) or a Long Form petition. Petitions are submitted through the Document Processing Submission System (DPSS) at [https://ogsdpss.tamu.edu/](https://ogsdpss.tamu.edu/). The petition will be routed for the required approval by the members of the student’s advisory committee, if appointed, and the department head, or his or her designee (or chair of the intercollegiate faculty, if appropriate). Students are able to log in to the site to check on the progress of the petition’s approval.

**Preliminary Examination for Doctoral Students**

Preliminary exam refers to all examinations that are prerequisite to the admission to candidacy. The student’s major department and their advisory committee may require qualifying, cumulative, or other types of examinations at any time deemed desirable. These examinations are entirely at the discretion of the department and the student’s advisory committee.

The preliminary examination is required. The preliminary examination for a doctoral student shall be given no earlier than a date at which the student is within 6 credit hours of completion of the formal coursework on the degree plan (i.e., all coursework on the degree plan except 681, 684, 690, 691, 692, 693, 695, 697, 791, or other graduate courses specifically designated as S/U in the
course catalog). The student should complete the Preliminary Examination no later than the end of the semester following the completion of the formal coursework on the degree plan.

**Preliminary Examination Format**

The objective of preliminary examination is to evaluate whether the student has demonstrated the following qualifications:

1. a mastery of the subject matter of all fields in the program;
2. an adequate knowledge of the literature in these fields and an ability to carry out bibliographical research;
3. an understanding of the research problem and the appropriate methodological approaches.

The format of the preliminary examination shall be determined by the student's department (or interdisciplinary degree program, if applicable) and advisory committee, and communicated to the student in advance of the examination. The exam may consist of a written component, oral component, or combination of written and oral components.

The preliminary exam may be administered by the advisory committee or a departmental committee; herein referred to as the examination committee.

Regardless of exam format, a student will receive an overall preliminary exam result of pass or fail. The department (or interdisciplinary degree program, if applicable) will determine how the overall pass or fail result is determined based on the exam structure and internal department procedures. If the exam is administered by the advisory committee, each advisory committee member will provide a pass or fail evaluation decision.

Only one advisory committee substitution is allowed to provide an evaluation decision for a student’s preliminary exam, and it cannot be the committee chair.

If a student is required to take, as a part of the preliminary examination, a written component administered by a department or interdisciplinary degree program, the department or interdisciplinary degree program faculty must:

1. offer the examination at least once every six months. The departmental or interdisciplinary degree program examination should be announced at least 30 days prior to the scheduled examination date.
2. assume the responsibility for marking the examination satisfactory or unsatisfactory, or otherwise graded, and in the case of unsatisfactory, stating specifically the reasons for such a mark.
3. forward the marked examination to the chair of the student’s advisory committee within one week after the examination.
Preliminary Examination Policy

The preliminary exam consists of two portions, the written and oral exams. The Chair and Committee shall make determinations on his or her own requirements for the written portion of the exam. Any committee member chose his or her own format for the written portion of the exam as long as it is contained with the specified time period allocated by the committee. As examples but not limited to, less time, proctored writing, etc. The oral exam must be scheduled to occur after a suitable timeframe to allow grading the written portion.

Preliminary Examination Scheduling

Prior to commencing any component of the preliminary examination, a departmental representative or the advisory committee chair will review the eligibility criteria with the student, using the Preliminary Examination Checklist to ensure the student is eligible for the preliminary examination. The following list of eligibility requirements applies.

1. Student is registered at Texas A&M University for a minimum of one semester credit hour in the long semester or summer term during which any component of the preliminary examination is held. If the entire examination is held between semesters, then the student must be registered for the term immediately preceding the examination.
2. An approved degree plan is on file with the Graduate and Professional School prior to commencing the first component of the examination.
3. Student’s cumulative GPR is at least 3.000
4. Student’s degree plan GPR is at least 3.000.
5. All English language proficiency requirements are satisfied.
6. At the end of the semester in which at least the first component of the exam is given, there are no more than 6 hours of coursework remaining on the degree plan (except 681, 684, 690, 691, 692, 693, 695, 697, 791, or other graduate courses specifically designated as S/U in the course catalog). The head of the student’s department (or Chair of the Interdisciplinary Degree Program, if applicable) has the authority to approve a waiver of this criterion.

Report of Preliminary Examination

Credit for the preliminary examination is not transferable in cases where a student changes degree programs after passing a preliminary exam. If a written component precedes an oral component of the preliminary exam, the chair of the student’s examination committee is responsible for making all written examinations available to all members of the committee. A positive evaluation of the preliminary exam by all members of a student’s examination committee with at most one dissension is required to pass a student on his or her preliminary exam. The student’s department will promptly report the results of the Preliminary Examination to the Graduate and Professional School via the Report of Doctoral Preliminary Examination form. The Preliminary Examination checklist form must also be submitted. These forms should be submitted to the Graduate and Professional School within 10 working days of completion of the preliminary examination.
The Report of the Preliminary Examination form must be submitted with original signatures of the approved examination committee members. If an approved examination committee member substitution (one only) has been made, that signature must also be included, in place of the committee member, on the form submitted to the Graduate and Professional School. The original signature of the department head is also required on the form. After passing the required preliminary examination for the doctoral degree, the student must complete the final examination for the degree within four calendar years. Otherwise, the student will be required to repeat the preliminary examination.

**Retake of Failed Preliminary Examination**

Upon approval of the student's examination committee, with no more than one member dissenting, and approval of the Graduate and Professional School, a student who has failed the preliminary examination may be given one re-examination. Adequate time must be given to permit the student to address the inadequacies emerging from the first preliminary examination. The examination committee must agree upon and communicate in writing to the student, an adequate time-frame from the first examination (normally six months) to retest, as well as a detailed explanation of the inadequacies emerging from the examination. The student and the committee should jointly negotiate a mutually acceptable date for this retest. When providing feedback on inadequacies, the committee should clearly document expected improvements that the student must be able to exhibit in order to retake the exam. The examination committee will document and communicate the time-frame and feedback within 10 working days of the exam that was not passed.

**Research Proposal**

All doctoral degrees require a research proposal. The proposal must be approved by the advisory committee and the head of the major department. This proposal must be submitted to the Graduate and Professional School at least 20 working days prior to the submission of the request for the final examination. All research proposals are routed to the Office of Research Compliance and Biosafety for review and approval by the Graduate and Professional School prior to final approval. Compliance issues must be addressed if a graduate student is performing research involving human subjects, animals, infectious biohazards and recombinant DNA. A student involved in these types of research should check with the Office of Research Compliance and Biosafety at (979) 458-1467 to address questions about all research compliance responsibilities. Additional information can also be obtained on the website [http://rcb.tamu.edu](http://rcb.tamu.edu).

**Admission to Candidacy**

To be admitted to candidacy for a doctoral degree, a student must have:

1. completed all formal coursework on the degree plan with the exception of any remaining 681, 684, 690 and 691, 692, 791 or other graduate courses specifically designated as S/U in the course catalog,
2. a 3.0 Graduate GPA and a Degree Plan GPA of at least 3.0 with no grade lower than C in any course on the degree plan,
3. passed the preliminary examination,
4. submitted an approved dissertation proposal,
5. met the residence requirements.
The final examination will not be authorized for any doctoral student who has not been admitted to candidacy.

**Final Examination for Doctoral Students**

The candidate for the doctoral degree must pass a final examination by deadline dates announced in the “Graduate and Professional School Calendar” each semester. The doctoral student is allowed only one opportunity to take the final examination.

**No un-absolved grades of D, F, or U for any course can be listed on the degree plan.** The student must be registered for any remaining hours of 681, 684, 690, 691, 692, 791 or other graduate courses specifically designated as S/U in the course catalog during the semester of the final exam. No student may be given a final examination until they have been admitted to candidacy and their current official cumulative and degree plan GPAs are 3.00 or better.

The request to hold and announce the final examination must be submitted to the EPSY Graduate Advising Office a minimum of 15 working days in advance of the scheduled date. This will allow the advising office time to review the student’s degree evaluation and notify the student of any deficiencies, if applicable. Any changes to the degree plan must be approved by the Graduate and Professional School prior to the submission of the request for final examination. To reserve a room for the dissertation defense, the student must contact the EPSY main office. They will then complete the Request and Announcement of Final Exam form located on the GPS website.

The student’s advisory committee will conduct this examination. The final examination is not to be administered until the dissertation is available in substantially final form to the student’s advisory committee, and all concerned have had adequate time to review the document. Whereas the final examination may cover the broad field of the candidate’s training, it is presumed that the major portion of the time will be devoted to the dissertation and closely allied topics. Persons other than members of the graduate faculty may, with mutual consent of the candidate and the chair of the advisory committee, be invited to attend a final examination for an advanced degree. A positive vote by all members of the graduate committee with at most one dissension is required to pass a student on his or her exam. A department can have a stricter requirement provided there is consistency within all degree programs within a department. Upon completion of the questioning of the candidate, all visitors must excuse themselves from the proceedings.

**Report of Final Examination**

The student’s department will promptly report the results of the Final Examination to the GPS via the Report of Doctoral Final Examination form. These forms should be submitted to the Graduate and Professional School within 10 working days of completion of the final examination. The Graduate and Professional School must be notified in writing of any cancellations. A positive evaluation of the final exam by all members of a student’s advisory committee with at most one dissension is required to pass a student on his or her exam. The Report of the Final Examination Form must be submitted with original signatures of only the committee members approved by the Graduate and Professional School. If necessary, multiple copies of the form may be submitted with different committee member original signatures. If an approved committee member substitution (1 only) has been made, his/her signature must be included on the form.
submitted to the Graduate and Professional School.

**All members must be in-person for the final defense.** With approval (prior to submitting Request), up to one member (excluding Chair) may join via video conference. This conference must be set up by the student, as well as obtaining all committee member signatures prior to submission to the Graduate Advising Office.

**Dissertation**

The Graduate and Professional School is responsible for reviewing each dissertation to ensure that the format requirements of the University are met. Guidelines and electronic templates for the preparation of the manuscript are available in the *Thesis and Dissertation Manual* and online at [http://GPS.tamu.edu](http://GPS.tamu.edu). All manuscripts must be submitted electronically.

**Pre-Defense Publication of Dissertation Material**

A graduate student may publish material that subsequently will be used as part of the dissertation. A student should be aware of the copyright agreement that is signed when a journal (hard copy or electronic) accepts an article for publication. At that time, the student generally assigns rights to the journal as publisher. If the student has not retained the right to use the material in the dissertation, he/she must then obtain written permission from the copyright holder to include the material in the manuscript. If such permission is not obtained, or rights have not been retained, the copyrighted material cannot be included in the dissertation.

**Use of Classified and Proprietary Information in Dissertation**

Committee chairs are cautioned against allowing a student to use classified or proprietary information in electronic dissertations (ETDs), because these documents become available to the public upon submission to the Graduate and Professional School. The research conducted at Texas A&M University, as a Texas public institution, is ultimately for the benefit of the public. All ETDs are available on the Internet via the Texas A&M University Libraries. In addition, dissertations are published electronically by ProQuest (UMI) and are available from that source. A temporary embargo, or delay in public release, is possible.

**Letter of Completion**

The Graduate and Professional School may issue a letter of completion for an individual student upon written request from the student. The letter of completion certifies that the student has completed all academic requirements for the degree and states the date the degree will be awarded. International students should contact International Student Services prior to requesting a letter of completion to determine how receiving it could affect the student’s visa status.

This letter may be requested anytime from the point the student has completed all requirements for the awarding of the degree and until five days prior to commencement. A student in a master’s thesis option or a doctoral program must have completed all degree requirements, including final clearance, to be eligible to request this letter.
PhD Graduation Rubric

Faculty will submit the form below to the Manager for Assessment and High Impact Practices (Dean’s Office) upon successful completion of dissertation:

<table>
<thead>
<tr>
<th>DOMAIN</th>
<th>BELOW EXPECTATIONS</th>
<th>MEETS EXPECTATIONS</th>
<th>ABOVE EXPECTATIONS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mastery of Degree Requirements</td>
<td>Lacks the understanding of the foundational concepts, principles, and theories in the field; unable to synthesize material across courses or experiences.</td>
<td>Able to sufficiently articulate the foundational concepts, principles, and theories in the discipline; able to synthesize subject matter across courses and experiences.</td>
<td>Effectively articulates theories, concepts, and principles germane to the discipline; exceptional ability to synthesize material across courses and experiences.</td>
</tr>
<tr>
<td>Teaching / Field Experience</td>
<td>Lacks experience and expertise in teaching or field experiences; is unable to explain the subject matter in the discipline.</td>
<td>Has appropriate teaching or field experience; is able to explain the subject matter in the discipline.</td>
<td>Has varied teaching or field experiences; has developed advanced pedagogical skills necessary to effectively explain the subject matter in the discipline.</td>
</tr>
<tr>
<td>Reasoned Arguments</td>
<td>Relies on own point of view or a single perspective to develop arguments; unable to integrate information; lacks ability to develop critical arguments.</td>
<td>Uses a variety of sources to evaluate multiple points of view; analyzes and integrates information to conduct critical, reasoned arguments.</td>
<td>Synthesizes in-depth information from relevant sources; organizes and synthesizes evidence into meaningful patterns; states conclusions that are logical extrapolations from the inquiry.</td>
</tr>
<tr>
<td>Communication</td>
<td>Demonstrates marginal written and oral communication skills.</td>
<td>Communicates well in both written and verbal forms.</td>
<td>Demonstrates high level of competency in both verbal and written communications.</td>
</tr>
<tr>
<td>Technology</td>
<td>Lacks skills in using suitable technologies to communicate, collaborate, conduct research, and solve problems.</td>
<td>Demonstrates the ability to use appropriate technologies to achieve a variety of tasks, including communicating, collaborating with others, conducting research, and solving problems.</td>
<td>Is proficient in using technologies to communicate with others, collaborate, conduct research, and solve problems.</td>
</tr>
<tr>
<td>Research</td>
<td>Unable to develop research plans or conduct research suitable for the discipline.</td>
<td>Is able to develop a research plan and conduct institutionally appropriate research.</td>
<td>Is proficient in developing clear research plans and conducting valid, theoretically consistent, and institutionally appropriate research.</td>
</tr>
<tr>
<td>Ethics</td>
<td>Can recognize basic and obvious ethical issues but fails to grasp complexity or interrelationships.</td>
<td>Student can recognize ethical issues when issues are present in complex, multilayered context OR can grasp cross-relationships among the issues.</td>
<td>Student can recognize ethical issues when issues re-present in complex, multilayered context AND can grasp cross-relationships among the issues.</td>
</tr>

Degree Being Pursued: ___________________________  Date Form Completed: ___________________________

Graduation

A graduate degree is conferred at the close of each regular semester and 10-week summer semester. A candidate for an advanced degree who expects to complete his/her work at the end of a given semester must apply for graduation by submitting the electronic application for degree to the Office of the Registrar and by paying the required graduation fee to Student Business Services no later than the Friday of the fifth week of the fall or spring semester or the Friday of the first week of the second summer term. The electronic application can be accessed via the Howdy portal. A cancellation made after the application deadline will not result in a refund of the diploma fee. Graduate degree candidates who have completed all degree requirements will not be allowed to cancel their graduation application without approval from the Graduate and Professional School. A student should check the website of the Office of the Registrar at http://graduation.tamu.edu to determine the date and time of his/her graduation ceremony.
